

Polio Cause Major Puzzle; Is Greatest Disease Menace

WASHINGTON, (NANA)—Polio-mi-ly, despite the most intensive research work all over the country devoted to any single malady for more than a decade, remains about the most puzzling of epidemic diseases—and potentially one of the greatest menaces to the human race. The continent now is experiencing one of its worst polio epidemics.

Polio's behavior is a bundle of contradictions. As yet, disease authorities of the National Institute of Health. It is well known, for example, that at least 40 percent of all persons in the U.S. in areas where tests have been made have had the disease at some time. In some groups this runs as high as 100 percent of all persons more than 20 years old. Only about one in 1,000 ever had the slightest suspicion of their having polio. Either there were no symptoms whatsoever, or the victims may have only felt a trifle off form for a day or two.

The almost universal prevalence of polio becomes apparent from blood serum tests. In the blood of nearly every American child there are polio antibodies which, as far as known, could not have been formed except in response to an attack of the disease itself. As one goes down the age scale below 20, fewer and fewer persons have polio antibodies and they disappear entirely in the blood serum of small children. This leads to the conclusion that immunity is born immune to the disease.

Incubation Period Unknown

Unusually common persons have a high resistance to the virus, however, while others apparently have no resistance at all. Nobody knows when it can be found, or even make a good guess, as to when the incubation lies. At the National Institute of Health, studies which were the result of several generations of identical-twin studies—supposed to make the animals as nearly identical in all physical characteristics as possible, were infected with the disease. They were given ex-

perimental make-up—due to environmental changes, exposure to cosmic rays or ultra-violet light, or to any number of factors known to be instrumental in evolution. A more directly polio virus, capable of stimulating what is protective factor exists in the bodies of most people, might appear at any time.

Moreover, it is stressed, research on polio is really research on the whole problem, now the most obscure in the whole field of medicine, with the possible exception of cancer. In fact, even cancer may be caused by some unknown virus, although this theory is not generally accepted.

Nobody knows how long polio has existed in the world. Whether or not a person has polio is very difficult to determine until the symptoms become fairly severe. There is no good diagnostic test and only rudimentary effective animal tests. When a child becomes ill in the midst of a polio epidemic a physician is on safe ground if he assumes this disease as a possibility.

Optimism Rises On Peace Parley

PARIS, (CP)—A Canadian source said Tuesday delegates at the peace conference are becoming increasingly optimistic about the parley's progress and many are forecasting the session will end by Nov. 1, or perhaps earlier.

The progress made Monday indicates a more business-like attitude is being adopted, which augurs well for the future," this source said.

Outlines Method Of Church Union

WINNIPEG, (CP)—A common communion should be the first step toward union of the churches, Dr. Geoffrey Fisher, Archbishop of Canterbury, told a Ho-Communion service Wednesday. The service marked the opening of the 10th session of the general synod of the Church of England in Canada here.

"I doubt whether the search for organic union of the churches is the most helpful toward that end," the archbishop said. "We must aim for a condition in which there will be a common communion, even though the autonomous parts of the churches remain."

Chief Justice J. C. McNeil, of the high court of justice of Ontario, was elected president of the Canadian Bar association recently. He has just completed a term as assistant vice-president of the association.

Manitoba Reports Phenomenal Yields

WINNIPEG, (CP)—Thrashing returns from southern Manitoba were showing "phenomenal" yields in some districts, provincial agricultural officials said here Wednesday.

Some officials told guards of an average of 24 bushels to the acre for the province, close to the all-time Manitoba record of 26 bushels in 1915.

Reports from the Swan River and Winkler districts gave 29 bushels to the acre and other areas gave 25 bushels as a minimum. Three members of the Dugald James Seed Growers' club, a few miles east of Winnipeg, threshed a 14-acre plot of Regent wheat which yielded 33.2 bushels to the acre.

Gen. Panet Retires From Police Post

MONTREAL—Major-Gen. E. De B. Panet, C.M.G., D.S.O., L.D.M., E.D., has retired as chief of the C.P.R. department of investigation after 21 years service in that position and has been succeeded by A. Hector Cadieux, D.B.E., deputy chief of the department since 1943 and in police work for 41 years.

The position of deputy chief will be filled by Stanley J. Sory, assistant to the chief for the past 21 years.

Gen. Panet, a native of Ottawa, will continue as old time representative for the province of Quebec under the chief controller for Canada, maintaining a record of public service which goes back to the turn of the century.

Pilot and Brother Die in Alaska Crash

FALMOUTH, Alaska, (AP)—Alaska's youngest commercial pilot, 18-year-old David Johnson, and his brother George, were killed Tuesday when their small float plane hit a 300-foot radio antenna after taking off in dense fog.

The tragedy came as an aftermath to a holiday week-end moose hunt. The brothers were taking off from the Tanana river to butcher a moose they had shot.

Says World Facing Employment Tasks

MONTREAL, (CP)—Edward J. Flynn, acting director of the International Labor office, said Wednesday in a report on organization of employment that transition from wartime to peace-time production in industry has been made "comparatively smoothly and at a lower human cost than had been anticipated."

At the same time he warned that the world already is faced with longer-term employment problems of the future.

Coast Labor Body Raps A.F.L. Head

VANCOUVER, (CP)—A rebuke to International President William Green of the American Federation of Labor was registered by delegates to the Vancouver Trades and Labor council (A.F.L.) Tuesday night.

The council drafted a request from the powerful American labor leader that they seek expiation of the Maritime Union from the Trades and Labor Congress of Canada at the convention, which opens in Windsor Sept. 18 because that organization refused to pay per capita tax to the A.F.L. (The trades congress is an A.F.L. affiliate.)

The delegates went on record favoring retention of the machinery in the Canadian labor body. They also supported a motion "supporting the actions of Trades and Labor Congress President Percy Bousquet against the dictatorial attitude of the executive of the A.F.L."

Tells Importance Dieppe Victory

LONDON, (CP)—Canadian troops re-opening Dieppe in 1944 wiped out a threatened supply shortage for all British armies at a time when reserve stocks were dwindling fast and "we had both feet off the ground," Field Marshal Viscount Montgomery disclosed in war office dispatches published Wednesday.

It was the first time the wartime commander of the 21st army group, now touring western Canada as chief of the imperial general staff, had commented on the supreme urgency of the task of clearing the channel coast which was given Gen. Creer's 1st Canadian Army after the Seine crossing.

With the dense bridges destroyed and railways extensively damaged, Lord Montgomery, then Sir Bernard, had to maintain lines of communications stretching 400 miles from Bayeux in Normandy to Antwerp.

U.S. 88TH INFANTRY DIVISION PARADES STRENGTH IN GORIZIA

'QUEEN ELIZABETH,' ALLIES' LARGEST TROOPSHIP, GETS REST

STRATEGIC PARADE—At the foot of the Yugoslav mountain crest, Julian Alps, the U.S.'s 88th Infantry Division displays a part of its strength at Gorizia, Italy, airport. Twelve thousand men including those assigned to mobile units took part in the demonstration.

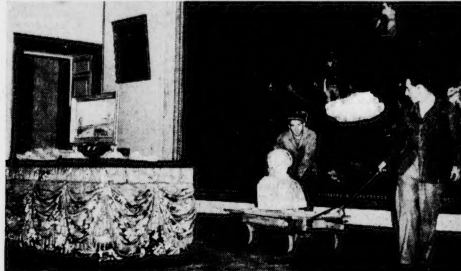

POLIO VICTIM—Arthur Rudolph, Evergreen Park, Ill., gets help from his brothers, Gary, left, and Harold in boarding plane at Chicago. Stricken with infantile paralysis, Arthur is being flown to the Sister Kenny Institute in Minneapolis for treatment.

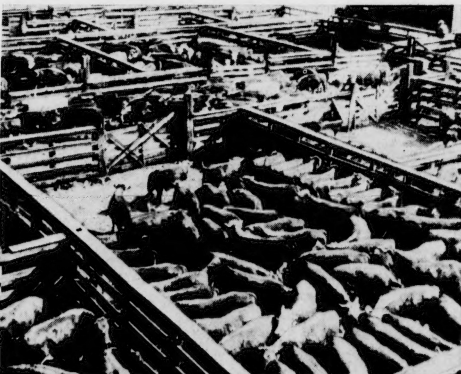

FACE-LIFTING A QUEEN—The Queen Elizabeth, world's largest vessel, gets reconverted from stern to stern at the King George V graving dock in Southampton, Eng. A troopship for the Allies, the luxury liner is being fitted with plush and gold of pre-war days.

TRAVELING SHOE STORE—Pfc. Charles Butler, Besemer, Alabama, is having a clothing check in San Francisco of the equipment he will take with him to Alaska. He will participate in the Army Ground Forces tour this winter. Equipment shown is in addition to mugal gear issued an infantry soldier.

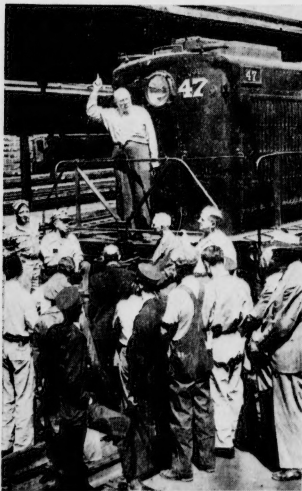

ART TREASURES RETURNED—Having been removed at the outbreak of the war, priceless art treasures are being returned to the Palace of Versailles in Paris. The job of reorganizing the museum is a slow, exacting one. Only a score of rooms are open to visitors.

BEEF FOR THE MILLIONS—The heaviest cattle run in 12 years occurred in Chicago recently when these steers crowded the stockyards. Run was apparently an effort to beat restoration of OPA ceilings on livestock. Most of the cattle was underweight.

HOME WAS NEVER LIKE THIS—Dan McGuire, Kent State University student, Kent, Ohio, sets up his bed in lobby of downtown theater. It's a part of campaign being staged by ex-GIs to urge help in housing college veterans.

RAILROADING PREACHER—The Rev. Thomas H. Harrison, a former engineer who turned minister, preaches a sermon to railroad workers at the Washington, D.C. Terminal yards. He travels from coast to coast preaching to railroad men.

COAL SHOW—Everything that Janice Frazier wears is made of coal, including costume jewelry. Miss Frazier was hostess at coal exhibition at Blufffield, W.Va., and was crowned "Miss Bituminous."

LILY MEETS THE GENERAL—When General Dwight D. Eisenhower congratulated Lily Pons after her performance in "Rigoletto" in Mexico City, the coloratura responded with a five star smile. The star's husband, Andre Kostelanetz (white coat) is in background.

MARRIED—Film actress Virginia Bruce takes a firm grip on knife to cut a piece of their wedding cake for her husband, Pvt. Ali Ipar. They were married in Beverly Hills, Calif.

King Convinced by His Trip Canada's War Record Right

OTTAWA, (CP)—Prime Minister King told a press conference Wednesday "I have never been more satisfied in my own mind that everything Canada did in the war was right."

Reviewing his memories of a recent trip through the Normandy battlefields of the Canadian army, Mr. King said he was "confident if Canada hadn't done everything she did

none of us would be assembled here in this room."

Fresh from the international complexities of the Paris peace conference, the prime minister said he had found Canada's position in the world "never stood higher."

His flight into this field was prompted off by a reporter's question about the flying of the Red Ensign at the conference. Mr. King said not only was it flown but it was admired and cheered.

"When you get representatives of 21 nations sitting down together it does take a very considerable time to convince some people they should do one thing instead of another."

He thought the Paris conference might have benefited from less publicity, particularly in committee. "It does come to a stage where a few men sitting around a committee table could reach a decision much quicker if they were not aware that every word would be flashed around the world."

The prime minister said he felt "what is good in our individual and national life is patience."

It must be remembered that with nations had been fighting one another for ages it took time to overcome the hatreds and bitterness of the past.

Asked about Canada's participation in the European peace, the prime minister said he thought it would be "the worst thing that could happen to Canada" if she "suddenly jumped into the European area to say with a loud voice what should be done."

Canada's best role, he felt, was to continue to be co-operative and helpful as possible but "not to try to talk about a lot of things she doesn't know about."

Use Tenth Output Ammonium Nitrate
MONTREAL, (CP)—Canada now is producing about 20,000 tons of ammonium nitrate a year, of which only about 20,000 tons are consumed in this country and the remainder allocated by the government to countries needing nitrogen fertilizer.

Grant S. Peart, fertilizer administrator, said Wednesday a Canadian dispatch had said the United Nations Food and Agriculture Organization committee on agricultural science and production recommended the Canadian government be approached with a request that government nitrogen fertilizing plants be maintained at maximum production.

Siamese King in Switzerland to Study

King Phumiphon Aduldej of Siam, 18, who recently succeeded his brother, King Ananda Mahidol, after the latter was shot to death, is shown as he arrived by plane at Geneva, Switzerland, to continue his studies at Lausanne. With the young monarch are his mother, Queen Saisavak Chulabhorn and his sister, escorted by Swiss officials.

Huge Salt Mine Found in Jutland

NEW YORK, (NANA)—Jutland Peninsula in Denmark may soon replace the better-known salt mines of Siberia and of Brice, Poland, as a source of salt for Europe, following a discovery by U.S. prospectors currently conducting a thorough search for minerals throughout the Scandinavian Kingdom.

The prospectors, led by Walter B. Byrom of Texas, who had previously struck oil in the Slave-Region, have just come upon a gigantic deposit of salt in the Jutland area, a distance in the Jutland Peninsula. The bed of salt is said to be of an average thickness of more than 600 feet and of an extremely fine quality. Extensive tests, when developed, supply all Europe's needs of that commodity.

21 Die in Crash At Le Bourget
PARIS, (AP)—Twenty-one persons Wednesday were killed in the crash of an Air France liner taking off from Paris for London, bringing to 30 the total number of dead in three French plane accidents in three days.

The latest crash, which killed 21 passengers and three of the crew of five, occurred when the plane failed to clear a factory roof at Le Bourget. A workman inside the factory was also killed.

PAPER HEAD HEADS
VICTORIA, (CP)—Shirley Dwight (Sara) Brooks, 67, well-known British Columbia businesswoman and chairman of the board of directors of Powell River company, died suddenly here Tuesday night.

4 SENTENCED TO DEATH
FRANKFURT, Germany, (Reuters)—Three male nurses and one woman were sentenced to death by a German court in Schwerin, northern Germany, for poisoning from 300 to 700 patients in St. Schermer hospital.

Kill German Slayer Of U.S. Professor
FRANKFURT, Germany, (AP)—United States military police and constabulary troops shot and killed the alleged German slayer of a Harvard university professor in a gun duel near Nuremberg Wednesday.

Criminal investigation agents said the killer of Edward V. Rostkowski, Cambridge, Mass., and Harvard, Pa., who died mysteriously from a gunshot wound on the Munich-Nuremberg highway Aug. 26, was a student in a forest near Nuremberg and killed as he attempted to escape.

The German, who was said to have been masquerading as an American officer, was identified as the slayer by two German girls just before he died.

France Suffers Polio Outbreak
PARIS, (NANA)—The dangerous summer-winter plague of poliomyelitis is still spreading slowly throughout France. Although it has not approached epidemic proportions, the number of cases is large and French physicians carry an alarming increase of reports from widespread centres on the development of the dread infantile paralysis.

The latest place to suffer is the central department of Nièvre. All municipal bathing pools have been closed in the department, although only three cases of the disease are reported from the region. The Côte-d'Or, where country of Burgundy is infected with 47 cases in the single region of Beaune.

Would Ban Parking Downtown Toronto
TORONTO, (CP)—A progressive parking ban and traffic control program for downtown Toronto was recommended to the mayor and city council Wednesday in a report of the Toronto traffic commission.

The report said drastic prohibition of parking on downtown streets will be needed as soon as work starts on the Toronto Transportation Commission's proposed streetcar rapid-transit routes, involving surface or open cut service running north-south and east-west across the city.

Career Men Take Diplomatic Posts

By John Reid

OTTAWA—For the first time in Canadian history, Canada's three highest diplomatic jobs go to three "career" diplomats, young men who entered the department of external affairs to become diplomats.

Norman Robertson, "Mike" (L.B.) Pearson and Hume Wrong—all close friends and are physically and temperamentally unlike one another, while they have obvious points of similarity.

All three are youngish: Wrong, 31; Pearson, 40; Robertson, 44. All are Ontarians, and two of them went to Balliol where training are at a premium. But only one was a Rhodes scholar from Toronto university and Pearson a Massey Foundation scholar from the same school.

Taught At Colleges
Wrong and Pearson taught history at Toronto and Wrong's father was the celebrated Canadian historian. Robertson was a tutor in economics at Harvard. All were picked for their jobs in external affairs by the late Dr. M. L. King, first deputy minister of external affairs and father of Canada's present foreign service.

All are immensely able and unusually experienced in comparative youth. But they are well contrasted, too.

Norman Robertson, who has been deputy minister at Ottawa and Mr. King's closest adviser for nearly six years, becomes Canadian high commissioner to London.

Mike Pearson, 40, is a tall, gangling, stoop-shouldered, with dark hair, a serious, reserved man. He works at the speed of another man's run and looks like a professor in a hurry. It is reserved, but his incisive mind is the height of his intimate ability. He is written all over him.

Mike Is All
Lester Pearson, ambassador to Washington who now becomes deputy minister of external affairs at Ottawa—was "Mike" to everybody in London and in Ottawa. He is picked for his jobs in external affairs by the late Dr. M. L. King, first deputy minister of external affairs and father of Canada's present foreign service.

Wrong, assistant deputy minister who becomes Canadian ambassador to London, is a tall, handsome, bland and acutely intelligent. As long ago as 1931, Sir Ronald Lindsay, British ambassador at Washington, picked Hume Wrong as a secretary, man for ambassador, because for many years Wrong was a secretary of the war office at first secretary. Wrong gets the job he just aspired, and for which he is fitted by experience, to push this move through.

Canada Pressing Reparations Demand
PARIS, (CP)—Although the first effort of the peace conference here to reach an Italian reparations commission has been defeated, Canada is looking for a second opportunity for countries wanting to have Italy settle its share in another effort late in the conference to push this move through.

Canadian representatives feel strongly that such a commission to supervise delivery of reparations from Italy will be necessary to prevent claiming countries obtaining unwarranted commercial concessions in Italy through unscrutinized reparations dealings.

The question is expected to bulk large again when the sub-committee of the Italian economic commission on which Canada is represented reports back to the commission in a few weeks on reparations claims on Italy by countries other than Russia.

The little girl who wouldn't eat!

SCIENCE has proved there are certain food elements everyone needs for health. If there aren't enough of them in a child's food, serious things can happen—such as loss of appetite, stunted growth, soft bones, poor teeth, faulty nerves, defective sight.

Ovaltine supplements the diet with elements frequently deficient in ordinary foods. Three servings of Ovaltine furnish a significant portion of a child's daily requirements of Vitamins A, B, C, D, Riboflavin (B2), and Nicotin and Minerals Calcium, Phosphorus and Iron.

In addition it provides the basic food substances—complete proteins to build muscle, nerve and body cells—high-energy foods for vitality and endurance. It also acts as an insurance against food deficiencies that retard normal growth.

So if your child eats poorly, is thin, underperforms, perhaps nervous, why not try delicious Ovaltine for normal growth and better appetite.

Vets Employment Rights Are Studied

Co-operation with recognized trade unions in the matter of jobs and employment rights of war veterans was approved by the national convention of the Dominion Command of the Army, Navy and Air Force Veterans of Canada in a resolution passed Wednesday morning.

THE CONVENTION, in passing the resolution, decided that all relations dealing with employment and seniority rights of veterans returning from the services should be forwarded to the national command for consideration and action. A considerable discussion was carried out after the resolution was submitted.

The presentation of several delegates was that many young men, particularly on the railroad, were being laid off during the war years on a temporary basis, are now far senior to men who served their country in the services.

PRESIDENT H. D. LYNN of the Edmonton district, in his address to officials and not war veterans' obtaining appointments to the better jobs.

Seniority of veterans should take time of enlistment regardless of whether or not they have been previously employed, the convention decided.

Several delegates told of good co-operation of the Dominion Command from heads of labor unions in various districts of Canada.

W. J. TUPPER of Winnipeg was elected chief officer and members in this city for the royal time they enjoyed. Convention delegates concluded here.

There has been no general increase in the salaries paid to Alberta's deputy ministers, Premier Ernest Manning said Wednesday in a statement.

W. J. TUPPER of Winnipeg was elected chief officer and members in this city for the royal time they enjoyed. Convention delegates concluded here.

There have been one or two increases in certain departments of the provincial government since the extension of the ceiling, but no recommendations were left to the department heads, and at no time has it been general, the premier informed reporters.

PRESENTATION of an honorary life membership in the Dominion Command was made by Dr. W. H. Swill, deputy minister of education.

MR. SHARP was visibly affected by the presentation. He said he had been fighting the battle of the veterans for a long time and would continue to carry on the veteran's fight.

VETS ELECT NATIONAL EXECUTIVE: Election of officers concluded the three-day convention of the Dominion Command of the Army, Navy and Air Force Veterans association at the Macdonald hotel on Wednesday. Above are shown the men elected to act for the rank and file of the organization, along with members of the board of directors. Front row, left to right, are Dr. P. B. Mellon, Ottawa, continuing Dominion secretary; the Rev. Glen Stevenson, Port Alberni, B.C., chaplain; A. J. Wickens, former minister of national defence for air, Montreal, and Cecil Buh-Whitney, of the Dominion Command of the Army, Navy and Air Force Veterans Association of Canada at the close of a three-day national convention held in the Macdonald hotel Wednesday afternoon. He was accorded an acclamation.

Moose Jaw Barrister Elected Head of Veterans' Association

A. J. Wickens, K.C., Moose Jaw barrister, was elected president of the Dominion Command of the Army, Navy and Air Force Veterans Association of Canada at the close of a three-day national convention held in the Macdonald hotel Wednesday afternoon. He was accorded an acclamation.

THE new president had been an active member of the association since 1930. He was a staff sergeant at general headquarters of the Canadian Army in London during the First Great War.

MR. WICKENS succeeds Leslie G. Howard of Selkirk, Man., in the presidency, the latter resigning a resignation owing to the pressure of personal business.

MR. HOWARD has served as president for the past five years.

THE CONVENTION conferred an honorary life membership on the retiring president in appreciation of his sterling leadership.

First vice-president is T. R. Wheaten of Victoria, and S. Baldwin, Calgary, 2nd vice-president and A. Young, Quebec City, 3rd vice-president.

Other members of the board of directors elected are: H. B. McLaughlin, Lethbridge; W. R. Mills, Montreal; Frank Thowls, Winnipeg; Sydney Hamilton, Vancouver, and Honorary Capt. Glen Stevenson, Port Alberni, B.C., chairman of the association.

McLAUGHLIN, MILLS, Hamilton and Thowls are all presidents of their respective provincial commands.

PRESIDENT-elect Wickens promised "aggressive action" to solve the great problems of rehabilitation.

"We will demand if necessary recognition in fact as well as in name of the federal government," he declared.

He added that the organization of 70,000 veterans of two wars would not rest until every veteran is decently housed.

"OUR ESSENTIAL aim is to continue to give our comrades the education in which they thrive and our country the same service in peace that we gave them in war," he concluded.

P. B. Mellon, Ottawa was again named Dominion Command secretary.

Honorary patrons named prior to the election of officers are: Field Marshal the Rt. Hon. Viscount Alexander of Tunis, governor-general of Canada; Major-General A. Peckers, DSO, MC, VC, MP, Vancouver; Lt.-Col. C. C. Merrill, VC, Vancouver; Hon. C. G. Power.

Board Approves Raising \$50,000

Authorization for the raising of \$50,000, which will be required to complete construction and improvement on Edmonton schools, was approved by the Edmonton Public School Board, Tuesday evening, with the passing of by-law No. 56.

EARLY IN APRIL, a by-law was approved granting authority for the raising of the sum of \$50,000 for the construction work. However, recent tenders show that construction costs will amount to approximately \$132,041 against an original estimate of \$84,000.

On the recommendation of J. M. McArthur, superintendent of the school board, a plan was adopted to raise the sum of \$50,000 by the sale of bonds.

RESIGNATIONS were accepted from Mrs. Lora Fried of the school board and Miss Gwen Richards of the teaching staff, and leaves of absence were granted to J. H. Field, and Miss M. Brown.

HOME GROUP MEETING A meeting of the Edmonton Home Front Association will be held at 8 p.m. Friday in the North Side public library. A. L. Morse, president, will be chairman for the meeting.

Judging of Barley Fields Progressing

The judging process in fields of Alberta barley entered by farmers in the \$25,000 competition sponsored by the Breeding and Marketing Industries of Canada is now in its semi-final stages, it was learned Wednesday from the department of agriculture.

Due to the weather the number of entries from Alberta has dropped from an original 40 to 20, and the contest area of the province takes in about one eighth of the southern area extending as far north as Navel.

Judging is conducted on fields and is being handled in Alberta by officers of the provincial field crops branch.

Final judging will be of public barley when it is threshed and sampled in cars, inter-provincial judging is in the hands of the Canadian National Barley Committee of the Dominion Agricultural Advisory Board.

Purpose of the contest is to encourage greater production of finer grade barley for milling purposes.

Opinion Divided On Farm Strike

EDMONTON, (CP)—Dividing opinion toward the delivery strike called by Sept. 4 by the Alberta Farmers' Union and in which Saskatchewan United Farmers of Canada are asked to co-operate, was expressed by farmers of southeastern Saskatchewan in a survey Wednesday night.

C. P. Chapin, secretary-treasurer of the municipality of Strathcona about 60 miles northwest of Regina, said that a large number of farmers there were not aware they were members of the U.F.C. The U.F.C. claims \$5,000 of the 150,000 farmers of Saskatchewan as members.

Mr. Chapin explained that under provincial law municipalities could contribute a minimum of \$100 to the U.F.C. making all residents of municipalities members of the organization.

Need 7 Teachers Bountynville Area.—Bountynville.—School division 10, comprising the northeastern Alberta school districts and a staff of 19 teachers has resumed classes on the new term. Sixteen of the 19 are required to staff all schools.

Division is needed by Superintendent J. L. Sylvestre and the secretary-treasurer, W. C. Chiswick. Mr. Sylvestre also acts as inspector of the Bountynville school.

Due to the scarcity of graduated teachers now being felt everywhere, the division has been vacated in its staff on opening day. It is expected that supervisors will be hired to take over these openings.

The largest school in the division is those of Fort Kent, seven rooms, Glenora and Cold Lake, five rooms each.

At Fort Kent, the high school enrollment is about 60 pupils this year, which is a record for that school. The high school staff consists of Sister St. Edward de Croix, principal; Mrs. Lucille Leclair, Miss Laura Dupuis and Therese Bouchard and Sisters, St. Raphael and St. Louis.

The Glenora school, which in 1944-45 obtained one of the highest grade 12 examination averages in the province, has a staff of 11. Sister Shanno is principal. Other teachers are W. M. Malachuk, J. P. Procyk and Mrs. Roberta MacGillivray. Cold Lake school staff will be made up of Phyllis Maloney, Miss A. O'Dwyer, Ada Allard and Irma Biles.

New Classrooms.—Included in the division are the following two-room schools: Lacorner, Ardmore, Chicken Lake, Dupre, Leduc, Leduc, Bawit, and Boucher with principals of each being: Sister Marie, Sister St. Elizabeth, Mary Groulx, J. J. Dwyer, William Philip, and Sister Phyllis Bouchard and Adela Roy, respectively.

Due to the difficulty of finding building materials, five new classrooms were completed in time for the reopening. These are located at Lacorner, Chicken Lake, Dupre, Bawit and Alexander schools. In the last four years, 31 new rooms have been added to the division's total.

Vancouver Fears It Has Pirates

VANCOUVER, (CP)—Vancouver citizens, long accustomed to the depredations of the ordinary burglar, now are facing a new menace—pirates.

For the fifth time in eight months, thieves broke into Marine Laboratories here, stealing \$60 in cash and a fire extinguisher. Window-panes were smashed, and police believe the loot was removed by boat.

Your Baby And Mine

BY MYRTLE MEYER ELDERED CHILDREN WHO ARE NOT LOVED BUT NOT NANNIED

There are two things of which the well-adjusted child must be convinced: one—and the most important—this parent loves him for himself alone, not for his behavior; two, that he can't do everything he wants to do.

In order for a child to feel secure in a society that is full of danger and which, beginning at birth, the child is more or less on his own, there has to be a deep, comforting conviction that he is loved and appreciated by his own family.

That children doubt this because of the corrections, criticisms and punishment they get, is well attested by any student of children's problems. Children do not take the parents' love and they have it. They doubt it when they have been punished; they doubt it when brothers and sisters are born and they have to compete with them; they doubt it when parents express only their irritations at the "troubles" children are to them.

Such doubts lead to insecurity. Children don't care how they act because they think the parents don't love them and why should they struggle to be good? They feel themselves inferior to some other child and so do anything, however preposterous, to get the parents' attention. The result of their behavior is unappealing and they want to revenge themselves against parents who don't want them or love them. And such behavior cannot be ignored. It is the basis for it is changed, and the child is convinced of his worth.

The second essential to children, however loved, shall not get the idea that their desires and whims are paramount and that they can do what they want to do because they want to do it. To bring up a child with such a sense of it make him individual for the multitude, not the individual. Children have to learn to conform in the home and outside the home. Every child has to learn the rules of good living, what is best for the family and outside the household. This is best for everyone. He learns this by being disapproved when he misbehaves; by being chastised when he refuses to comply or is deliberately willful.

He can take disapproval, punishment and criticism, if he is convinced that this does not jeopardize his standing with his parents. They still love him, good or bad, but for his own sake, and theirs, and society's, they are teaching him how to act.

Our latest No. 75 "Obedience and Punishment" may be had by sending a stamped, self-addressed envelope, with this request, to Myrtle Meyer Elder, in care of the Edmonton Bulletin, Household Arts Dept., 60 Front Street, W., Toronto, 1, A. One Please allow a week or 10 days for delivery.
